I find it amazing that you have elected to show the world that the kind of illegal, and immoral business practices Microsoft have proved so expert at, is A OK.

I do understand though, that Microsoft are heavy sponsors of your department and therefore you will not find harshly against them.

Another fine example of how easy it is to purchase liberty and expand the definition of freedom for the rich by the US courts. Why an I surprised.

Looking forward to the movie deal - which will no doubt allow micro\$oft to profit further from the illegal actions you condone.
